Cavo microfono SC-MICRO-STAGE GTIN: 4026397581898

Prezzo di listino: 153.51 €

incl. 19% IVA

Descrizione :

The shrinking violet among the microphone cables is the new AES/EBU-capable SC-MICRO-STAGE. Though it may look somewhat inconspicuous at first sight, it splendidly meets the most essential requirements of contemporary live and studio technology. It has a cold-flexible, soft PVC jacket, a low capacitance and is very easy to handle. The compact cable diameter of 5,80 mm is ideal for using stereo jack connectors and XLR connectors with a small cable passage like they are still very popular e.g. overseas or on the US market. When used as a patch or MIDI cable, it will occupy only very little space in your patchbay or in the home studio. Due to its tight, concentric litz stranding and the foamed Skin PE wire insulation, the SC-MICRO-STAGE can easily transmit analogue and digital signals 110 ohms over distances greater than 100 metres.

Features :

- Alta qualità di trasmissione grazie all'uso di fili sottili
- Assai robusto grazie allo spesso rivestimento in PVC morbido
- Buona schermatura grazie al denso schermo intrecciato in rame
- L'elevata flessibilità facilita l'uso del tamburo
- Made in Europe
- Per campi di applicazione come, ad esempio.: Homerecording e studi; palco

Logistica

EAN / GTIN: 4026397581898
Peso : 4,06 kg
Lunghezza : 0.23 m
Larghezza : 0.23 m
Altezza : 0.15 m

Dati tecnici :

Struttura cavo: 2 x 0,14 mm² cavo microfono

Lunghezza cavo: 100 m
